

Enhancing creativity through art

PHOTO: HTCS

Art is something that transcends everything – from age, religion and cast to social setup. The Sagar School campus saw a lot of enthusiasm during the three day annual art fest – Kalasagar- a confluence of performing and creative arts. Chief guests Uma Jain and Uday Jain, from one of the oldest art galleries in India, Dhoomimal, presided over the function

The officiating Principal, Dr Deepak Raj Bisht welcomed the chief guests. "The event is an annual affair. Noted art experts and campus teachers conduct workshops in theatre, music, dance, creative art, pottery, Madhubani, fabric and glass paintings and also movie making. We also invite underprivileged children

and give them a chance to learn from our experts," said Sharmistha Julka, the director. Held on October 21, words of praise were shared by the chief guests at the event. They appreciated the initiative taken by the Sagarians and admired the beauty of the campus. They also applauded the efforts

being put in for the development of the students, and announced two art scholarships. Julka further motivated the children to keep up their creativity and appreciated their accomplishments.
